Minister's message

On behalf of Natural Resources Canada, I am pleased to present our report on fees for fiscal year 2021–22, my organization's fifth annual report under the *Service Fees Act*.

This year's report outlines the department's progress in modernizing fee management in accordance with the *Act*.

The *Service Fees Act* provides a modern legislative framework that ensures cost-effective delivery of services and, through better reporting to Parliament, improves transparency and oversight. It also enables us to provide services that support our resource sectors doing business in Canada to the benefit our people, communities, and the environment.

Natural Resources Canada does this through has fees that are set by contract or regulations, as required by legislation or to support delivering on the department's mandate. The sources of the fees include explosive licence and inspection, air photo, forest services products, non-destructive testing certification body services, certified reference material project products and fees set by individual contract.

This fiscal report details those charges for the past year. It provides specifics on each of the fees under the department's authority, including the type and rate of adjustment, the service standard, and the performance result. It also includes information on the remission policy, which became effective on April 1, 2021, as well as the reporting of remissions made under this policy.

I invite you to review this year's report, which further advances our key objective of open and transparent fee management.

The Honourable Jonathan Wilkinson, PC, MP.

Minister of Natural Resources

Fees Report for Fiscal Year 2019 to 2020

About this report

This report, which is tabled under section 20 of the [Service Fees Act](#)ⁱ, the [Low-Materiality Fees Regulations](#)ⁱⁱ, and subsection 4.2.8 of the Treasury Board [Directive on Charging and Special Financial Authorities](#)ⁱⁱⁱ, contains information about the fees Natural Resources Canada had the authority to set in fiscal year 2021–22.

The report covers fees that are subject to the *Service Fees Act* and exempted from the *Service Fees Act*.

For reporting purposes, fees are categorized by fee-setting mechanism. There are three mechanisms:

1. Act, regulation or fees notice
The authority to set these fees is delegated to a department, minister or Governor in Council pursuant to an act of Parliament.
2. Contract
Ministers have the authority to enter into contracts, which are usually negotiated between the minister and an individual or organization, and which cover fees and other terms and conditions. In some cases, that authority may also be provided by an act of Parliament.
3. Market rate or auction
The authority to set these fees is pursuant to an act of Parliament or a regulation, and the minister, department or Governor in Council has no control over the fee amount.

For fees set by act, regulation or fees notice, the report provides totals for fee groupings, as well as detailed information for each fee. For fees set by contract, the report provides totals only.

Although the fees Natural Resources Canada charges under the *Access to Information Act* were subject to the *Service Fees Act*, they are not included in this report. Information on Natural Resources Canada's access to information fees for 2021–22 is in our [Annual report to Parliament on the administration of the Access to Information Act](#)^{iv}.

Remissions

In 2021–22, Natural Resources Canada was subject to the requirements to issue remissions under section 7 of the *Service Fees Act* and subsection 4.2.4 of the Treasury Board *Directive on Charging and Special Financial Authorities* to remit a fee, in whole or in part, to a fee payer when a service standard was deemed not met. Natural Resources

Canada's remission policy and procedures, pursuant to the *Service Fees Act*, are on the following web page: [Service standards, fees adjustment, and fee remission policy](#)^v.

Overall totals, by fee-setting mechanism

The following table presents the total revenue, cost and remissions for all fees Natural Resources Canada had the authority to set in 2021–22, by fee-setting mechanism.

Overall totals for 2021–22, by fee-setting mechanism

Fee-setting mechanism	Revenue (\$)	Cost (\$)	Remissions (\$)
Fees set by contract	14,072,458.45	15,592,207.82	Remissions do not apply to fees set by contract.
Fees set by act, regulation or fees notice	5,232,208.48	7,741,099.05	1,446.60
Total	19,304,666.93	23,333,306.87	1,446.60

Totals, by fee grouping, for fees set by act, regulation or fees notice

A fee grouping is a set of fees relating to a single business line, directorate or program that a department had the authority to set for those activities.

This section presents, for each fee grouping, the total revenue, cost and remissions for all fees Natural Resources Canada had the authority to set in 2021–22 that are set by the following:

- act
- regulation
- fees notice

Explosives licence and inspection fees: totals for 2021–22

Revenue (\$)	Cost (\$)	Remissions (\$)
1,847,602.62	3,732,761.01	1,446.60

National Air Photo Library – Air Photo products fees: totals for 2021–22

Revenue (\$)	Cost (\$)	Remissions (\$)
384,979.38	439,330.19	0.00

Forest Services Products Fees: totals for 2021–22

Revenue (\$)	Cost (\$)	Remissions (\$)
29,115.65	29,115.65	0.00

Non-Destructive Testing Certification Body Services fees: totals for 2021–22

Revenue (\$)	Cost (\$)	Remissions (\$)
1,865,915.83	2,310,844.47	0.00

Certified Reference Materials Program (CRMP) Products fees: totals for 2021–22

Revenue (\$)	Cost (\$)	Remissions (\$)
1,104,595.00	1,229,047.73	0.00

Details on each fee set by act, regulation or fees notice

This section provides detailed information on each fee that Natural Resources Canada had the authority to set in 2021–22 and that was set by the following:

- act
- regulation
- fees notice

Fee grouping

Explosives licence and inspection fees

Fee

- Authorization for an indefinite period
- Authorization for a specified period for use other than at a special event, tour, or international competition
- Authorization for a specified period for use at a special event, tour, or international competition

- Single use permit
- Annual permit
- Initial division 1 factory licence to manufacture blasting or military explosives
- Renewal of a division 1 factory licence to manufacture blasting or military explosives
- Division 1 factory licence to manufacture any other explosives, and any other factory licence
- Vendor magazine licence to store high explosives or initiation systems
- Vendor magazine licence to store any other explosives – retail
- Vendor magazine licence to store any other explosives – distribution
- Vendor magazine licence to store any other explosives - re-packaging
- User magazine licence to store high explosives or initiation systems, other than high explosives and initiation systems stored by law enforcement agencies
- User magazine zone licence to store high explosives or initiation systems
- User magazine licence to store any other explosives, other than explosives stored by law enforcement agencies
- Certificate to manufacture blasting explosives
- Certificate to mechanically blend ammonium nitrate and fuel oil for immediate use at a blast site
- Any other manufacturing certificate
- Initial certificate
- Modification to or change of certificate
- Renewal of certificate

Fee-setting authority

- [Explosives Act](#)^{vi}
- [Explosives Regulations, 2013 \(SOR/2013-211\)](#)^{vii}

Year fee-setting authority was introduced

1950

Last year fee-setting authority was amended

2018

Service standard

Decisions on applications for authorization will be made within 40 business days of receipt of the complete documentation in compliance with the requirements of the Explosives Regulations, 2013. Initial factory applications for high explosives will be completed within 60 days of receipt of completed documentation; renewals of all licences and permits will be processed within 30 days of a completed request.

Performance result

Turnaround times for all applications have been met except for one division 1 factory licence renewal (30 day service standard), one initial application for a user magazine licence to store high explosives (60 day service standard) and one renewal for a user magazine licence to store high explosives (30 day service standard) that resulted in remissions as indicated in the table below.

Application of *Low-Materiality Fees Regulations*

- Low-materiality (\$51–\$151):
 - Vendor magazine licence to store any other explosives – retail
 - User magazine licence to store any other explosives, other than explosives stored by law enforcement agencies
 - Any other manufacturing certificate
 - Modification to or change of certificate
 - Renewal of certificate
- Material (>\$151):
 - Authorization for a specified period for use other than at a special event, tour, or international competition
 - Single use permit
 - Vendor magazine licence to store any other explosives – distribution
 - Vendor magazine licence to store any other explosives - re-packaging
 - Certificate to mechanically blend ammonium nitrate and fuel oil for immediate use at a blast site
 - Initial certificate
- Material (formula):
 - Authorization for an indefinite period
 - Authorization for a specified period for use at a special event, tour, or international competition
 - Annual permit
 - Initial division 1 factory licence to manufacture blasting or military explosives
 - Renewal of a division 1 factory licence to manufacture blasting or military explosives
 - Division 1 factory licence to manufacture any other explosives, and any other factory licence
 - Vendor magazine licence to store high explosives or initiation systems
 - User magazine licence to store high explosives or initiation systems, other than high explosives and initiation systems stored by law enforcement agencies
 - User magazine zone licence to store high explosives or initiation systems
 - Certificate to manufacture blasting explosives
