# Communiqué

## Final recognition criteria for ENERGY STAR Most Efficient 2022

The ENERGY STAR® program distinguishes the highest performers in energy efficiency for recognized products with the ENERGY STAR Most Efficient designation.

The recognition criteria for ENERGY STAR Most Efficient 2022 have been finalized. These criteria recognize the most efficient ENERGY STAR certified products in 2022 across 12 product categories. For 2022, Most Efficient recognition will not be granted to furnaces, boilers or gas dryers.

Products that meet 2022 criteria will deliver significant savings over conventional products.

## Final 2022 Recognition Criteria

The ENERGY STAR program in the U.S. and Canada recognizes criteria across the product categories listed below. To receive a French translation of these criteria please request via e-mail at: [energystar@nrcan-rncan.gc.ca](mailto:energystar@nrcan-rncan.gc.ca).

- [Ceiling Fans](#)
- [Central Air Conditioners, Air-Source Heat Pumps, and Geothermal Heat Pumps](#)
- [Clothes Dryers](#)
- [Clothes Washers](#)
- [Computer Monitors](#)
- [Dehumidifiers](#)
- [Dishwashers](#)
- [Non-Ducted Split Air Conditioners and Heat Pumps](#)
- [Consumer Refrigeration Products \(Refrigerators-Freezers\)](#)
- [Room Air Conditioners](#)
- [Ventilating Fans](#)
- Windows and sliding glass doors\*

*\*Natural Resources Canada's ENERGY STAR Most Efficient criteria for 2022 for windows and sliding glass doors is available on [NRCan's website](#). NRCan's [Searchable product list](#) is updated with qualified models as they are submitted.*

ENERGY STAR certified products meeting these requirements and available for sale in the U.S. will be highlighted as ENERGY STAR Most Efficient beginning **January 1, 2022** at [www.energystar.gov/mostefficient](http://www.energystar.gov/mostefficient).

The ENERGY STAR Most Efficient 2022 designation is intended for use at point-of-sale on point-of-purchase materials, product literature, and websites. It may not be factory-applied to products or product packaging.
